

Friday, Jan 21, we will be meeting again via Zoom. We are going to do another Peter Sheeler ink and watercolour painting, this time of some cute houses.

Please find attached the supply list that Peter uses, however don't go out and buy any colours you don't have. Just use a variety of your palette. This video requires some prework though so you need to do the ink drawing (make sure you are using waterproof ink!!!!) in advance so we will just be painting it on Friday.

I am attaching the drawing, the finished painting so you know what it looks like and the link to this video on YouTube if you want to do the drawing along with Peter (before Friday) so you will be ready to paint on Friday. I will only be showing the second half on Friday (the painting part.) How to paint a Fun Street Scene Line and Wash Watercolor.

Besides our painting time together, there will be time for conversation (breakout rooms), sharing recent paintings if you like, and of course our virtual draw for a \$10 gift certificate at Iron Oxide.
